Authorization for this examiner's amendment was given in a telephone interview with Ms. Holliday Heine on August 23, 2004.

The application has been amended as follows:

In The Claims

In claim 9, at line 10, after "mud", please insert a comma --,--.

In claim 9, at line 10, please delete the word "and".

In claim 9, at line 10, please delete the comma that appears after the word "sewage".

In claim 9, at line 10, please delete "or" and insert in its place --and--.

2. The following is an examiner's statement of reasons for allowance: The Examiner agrees with Applicant that Liu et al (EP 848251 A2) teaches away from mixing its second and third assay reagents prior to injection, and thus, it would not be obvious to mix these reagents prior to injection. More specifically, Liu et al requires separately subjecting each assay reagent to electrophoresis after injection. This requirement does not permit the second and third assay reagents to be mixed before capillary injection. The method disclosed in Figure 2 of Liu et al, for example, teaches (1) injecting the first assay reagent and subjecting it to electrophoresis, (2) injecting the second assay

reagent and subject it to electrophoresis and (3) injecting the third assay reagent and subject it to electrophoresis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
